📍 *6 Ali Mubarak St., Assuit, Egypt*

As a dedicated Frontend Developer with one year of hands-on experience, I bring a passion for creating visually appealing and user-friendly web applications. Proficient in React.JS HTML, CSS, JavaScript, and modern frontend libraries and frameworks, I have successfully contributed to the development of responsive and interactive websites that enhance user engagement and satisfaction.

Professional Experience

Institution of information technology (ITI), Menia University   *(Jul 2023 - Nov 2023)*

- Intensive Code Camp program (ICC): Full stack web development using python (2023)
- Graduation Project: "DENTOS" is a user-friendly and secure online platform designed to connect dentists and their patients, fostering a collaborative and supportive environment. This website aims to provide a one-stop solution for dental needs, offering a range of features and services to cater to the unique requirements of both dentists and patients.

Freelancer - Frontend developer   *(May 2024 - Now)*

- Budget - Chatbot: This React application offers a dual-functionality experience with two distinct sections. The first section features an AI chatbot, providing users with interactive and intelligent conversations. The second section is an image creator, where users can input a description and receive a generated image that matches their description.

Owner and Founder of MJ Designs   *(Nov 2021 - Jan 2023)*

- Technical office and site engineer.

Procurement & Technical office engineer at ORASCOM Redsea   *(Jan 2019 - Oct 2021)*

- Ministerial buildings -"The new Administrative Capital"- Governmental District.

Projects

- **Fast React Pizza Co.** : This React-based pizza ordering app lets users browse a menu, add items to a cart, and place orders with calculated total prices. Using Redux Toolkit for state management, it provides a smooth experience. Users can update quantities and view the total cost before ordering. The project showcases modern web technologies for a user-friendly interface.

- **World Wise app** : The World Wise app is a React application that lets users log in, detect their location or select locations on a map, and add visited cities to a personal list. It uses the Context API for state management, geolocation for mapping, and JSON for data storage. This app offers an interactive way to track visited cities, highlighting advanced React features and geolocation.

- **Use Popcorn** :The usePopcorn project is a React app for fetching and displaying movies. Users can search, select, rate, and add movies to a watched list stored in local storage, ensuring persistence after page refreshes. It offers a seamless experience for managing and rating movies, using local storage for data persistence and efficient state handling.

- **React Quiz** : The React Quiz App lets users answer questions, track scores, and complete the quiz within a time limit. It features a timer and a progress bar to show current score and questions answered, creating a dynamic and engaging experience.

- **Far Away** : The Far-Away app is a single-page React application for managing travel packing lists. Users can add items, specify quantities, and check them off when packed. The app allows sorting items alphabetically, by quantity, or by time added.

Education

Assuit University, Faculty of Engineering *(Sep 2013 - Jul 2018)*

- Bachelor degree civil engineering department.

Courses & Certificates

- The Ultimate React Course (Jonas Schmedtmann) : Udemy   (2024)
- Introduction to JavaScript : Sololearn   (2024)
- Python developer : Sololearn   (2023)
- Introduction to SQL : Sololearn   (2023)
- Introduction to HTML and CSS : Mahara-Tech   (2023)
- Introduction to JavaScript : Mahara-Tech   (2023)
- Database Fundamentals : Mahara-Tech   (2023)
- Data Analysis: Challenger track at FWD and Udacity   (2022)

Technical Skills

- Front-End using HTML, CSS, Bootstrap, React.js
- JavaScript
- Responsive Web Design
- Redux toolkit
- React Router (SPA)
- State Management
- Context API
- Backend Knowledge: Python, Django
- Version Control (GitHub)

InterPersonal Skills

- Problem-solving
- Creativity
- Conflict Management & Solutions
- Team work
- Attention to detail
- Organizational skills

Additional Information

- Military status : Exempted
- Languages : English , Arabic
